

From the Principal High Talent

Congratulations to the first grade basketball team who defeated Tamworth High 81-45 to win a place in the last eight in the state in the knockout competition. Their success is unprecedented since I have been at High. Well done to Albert Ng (Year 12) for his selection as a scholar in the Chemistry Training Program for the Australian Science Olympiads. He was awarded a bronze medal - congratulations.

Additional Year 9 Places Granted

Last week I was informed by Dr. Phil Lambert, Director of the Sydney Region, that the school could proceed with its proposal to create a seventh Year 9 class and select up to twenty boys to join High in 2008. There were concerns expressed about the school growing too large and producing too many selective places for boys, given that more boys than girls already take up selective places in the system. As part of the negotiations I offered to refrain from replacing students who leave the school until the numbers for Years 9-12 fall to below 195 for any one of those cohorts. Further, it was agreed that local area partially selective schools should not be adversely affected by the introduction of a new Year 9 class at High. Our Selection Committee will be sensitive to these and other issues as it assesses applications for the Year 9 vacancies.

In the transition phase 2008-9, places will still be offered to up to 20 students in Year 11 as we seek to reduce the size of Years 11 and 12, from 420 to 400. Simultaneously, in 2008-2009, we will offer up to 20 places for students entering Year 9, thereby increasing the size of Year 10 to 200 by 2009. In 2010, the policy becomes one of up to 20 new places in Year 9, with replacement places only in Years 10-12, if numbers for any one Year fall below 195. Hence, to minimise overall growth as a result of the introduction

of the new class, up to six students could leave in any one academic year before one replacement place would become available.

I thank Dr Lambert for his strategic vision in approving our submission which will lead, I am certain, to a stronger, more integrated school culture at High.

New Debating Administration Model for 2008

After meeting with the Debating Supporters Group recently, I have considered the succession plan for debating for 2008 and beyond, when we lose

Jocelyn Brewer as a staff member. Jocelyn has developed debating at High into a very large, all year responsibility. When she goes I propose to split the administration of debating along SWAS lines. Years 7-9 will have one Coordinator and Years 10-12 will have another. The job description for each role will be different. The **Junior Debating Coordinator** will focus on promotion of debating, recruitment, skill building and gaining debating experience and confidence. The junior program is geared towards mass participation with Teacher Trainer / Lecturers and Old Boy coaches. The program is supported by teachers taking teams away to debates and others helping to host home debates for East Side and junior competitions. The **Junior Debating Coordinator** would liaise closely with the debating Supporters Group and would be an in-school position.

The **Senior Debating Coordinator** role has a competition selection, preparation and participation focus. The role involves: recruiting, managing and paying coaches; implementing and evaluating the debating coaching manual; selecting teams; entering competitions; organising Friday night competition debates in the GPS season (in partnership with the **Junior Debating Coordinator**) and facilitating away debates. This role is supported by Ms Berger who accompanies senior teams in CHS competitions. Ms Cradock also supports the

program by taking teams to competition debates in school hours. The **Senior Debating Coordinator** has responsibility for communicating policy, events, team business, venues information and web site updates. Much of the communication occurs via group emailing. End of year functions would be a joint effort involving the two Coordinators and the DSG.

At this stage it is not clear whether Ms Brewer will be able to continue her **Senior Debating Coordinator** role from off site. It is technically possible for a person to do so. In order to have a smooth transition to the new model for 2008, I would appreciate expressions of interest from staff in respect to the **Junior Debating Coordinator** position. I envisage it would have the same terms and conditions as an MIC position.

Students of concern

Parents of students identified as not reaching the school standard in academic performance this semester are being contacted by mail. I have sought their permission for the school to offer special support for their boys. The support may take the form of special writing workshops, discussions in small groups about time management and self-organisation issues, study skills training, individual consultations with Year Advisers to construct Individual Learning Plans, or referral to the School Counsellor or external professional. I have asked for the assistance of Year Advisers to try to help these boys get back on track with their learning.
