

From the Principal

High Talent

At the season finale swimming carnival at SOPAC, High teams acquitted themselves well. The seniors finished 3rd in the point score to Newington. The Intermediate boys were 4th to the winners, Shore. Our juniors finished 5th to the high scoring Newington. The team and the supporters on the night were a credit to the school. Individual championship honours went to: William Lee 14 Years 50m breaststroke (32.64) and butterfly (29.90), Kalem Best 17 Years 50m freestyle champion (25.17) and 15 Years 50m breaststroke Allen Guo (33.92). Our 17 Years medley relay team (Rowlands, Kuo, Schofield L, Best) won in 1.56.53. Division wins were recorded by James Luo (14 Years 50m breaststroke), Irvin Tsui (15 Years 50m breaststroke), Christian Haddo (18+ 50m breaststroke) and Luke Schofield (17 Years 50m butterfly). The swimming program was managed again in great style by Mr Loizou, our MIC. Congratulations to him and to his competitive squad of dedicated swimmers.

Laser Cutter in Operation

It is an important step forward in precision technology for High to have its own laser cutter. The piece of equipment expands the possibilities for the type and variety of products that the students (and staff) can create. It can engrave, shape or cut with great precision. It is controlled by a computer and is an exciting step in the enlargement of our capacity to produce cutting edge products. There may be many opportunities for creative and commercial usage of the equipment. The total cost of the equipment, its exhaust facility and peripherals was c.\$50k. This represents a major capital expense item for the school. I am confident that our students and staff will make great use of its potential.

Key Ingredients to High as an Effective Digital School

1. *A shared vision.* Since 2000 we have had a consistent vision. Bring the

world into the classroom and then connect learners to the world.

2. *Strategy and guiding principles.* Our first priority was to put a PC on every teacher's desk. Then we installed a data projector and PC in every teaching space. Stage 3 involved supporting BYOD and network interface. Teachers first was the guiding principle.
3. *Network architecture.* After 2000 we made the decision to build the backbone first. We have achieved that and are now upgrading it. Connect the peripherals. We established specialist spaces with more computers for student use and expanded our printing capacity. Maintain and upgrade ICT in the classroom. We now have a big network which requires constant maintenance and equipment replacement. Develop communications in public spaces. We are now turning our attention to the Great Hall and the libraries. Aim for high end connectivity. We have successfully lobbied to have our bandwidth increased from 50Mb to 100Mb.
4. *ICT Policies and guidelines.* Since the early 2000s our acceptable usage of the internet policy and its associated protocols have been in place. We managed the DER laptop rollout to students and have supported the program up to our last cohort – Year 12, 2016.
5. *ICT Technical support services.* Our first objective was to support the network. Next we needed to manage DER. We have funded the TSO role since the program terminated. Our next objective is to fully support all our learners, both BYOD students and staff.
6. *Digital Learning space.* We have installed high capacity servers, routers and switches to facilitate data storage, collection, access and distribution. We have moved to improve the DoE Wi-Fi system left over from DER but face an imminent

- major expense to replace the obsolescent hardware
7. *Access.* We provide support for every teacher and learner through BYOD.
 8. *Applications, software and instructional toolsets.* We have consistently developed teachers' capacities to interface with the administration of the school. We have sophisticated student information software and online support but we need to ramp up our effort to upskill teachers. The recommended target is **teacher facility with at least 12 applications.**
 9. *Professional learning.* Our IT staff, particularly James Rudd, has supported individual teachers and faculties in personal upskilling projects. Staff are encouraged to hold faculty sessions to improve their familiarity with the useful applications and features of our school programs. We could work on improving our website refreshment protocols as some of the data and structures are dated or inaccurate. Better content and functionality from our site is a goal going forward.

Governors Centre Update

The Development Application document (all 628 pages) has been finalised and signed off by PCG members Danny Flynn, Alan Khaw, John Prorellis and me. I want to thank members for their work on the project so far and also extend my thanks to Geoff Andrews and Ian Sweeting for their service to the school in preparing the design. Our project managers TKD now have to go through the process of lodgement with City of Sydney Council. It will be a couple of months at least before we know if we have been successful. In the meantime, Paul Almond (SHS Foundation & OBU President) and Kate Morgan (SGHS Old Girl) are working with Gilbert and Tobin to draw up an agreement for the two schools to move to the next stage – development, construction and management of the project.

Meet The Prefect-Intern

I am greatly indebted to Sydney High for the last five years, over which it has already shaped me indescribably. My experiences of finishing the six-day week with debating on Friday nights and then cricket or football on Saturday mornings have been indispensable to my adolescent years. Waking up

at dawn for external collections, never going to sleep on camps, filling up my lunchtimes with activities and societies and just generally being busy with both academic and extra-curricular pursuits have characterised my life at High immensely. With the weeks counting down till we are clapped out for the last time, and with the aim of leaving behind something better than we inherited, the 2016 Prefect Body has set high goals for itself.

As Prefect of the Bear Pit, it is my goal to complete a large-scale improvement of this ancient building by the time we graduate. With much help from Jim Crampton, we will hopefully turn the Bear Pit into a positive symbol of the prefects within the school. Only through demonstrating respect for our own space can we expect the student body to reciprocate. It is also my role as the Prefect of the Senior library to assist Ms Gordon and our library staff with catering to the needs of senior students; in their study, reading and access to resources. It is my hope that all students will find the High Spirit within themselves to contribute one change to the school before they graduate. It has been the vision and action of so many past staff and students that who have made High what it is; the 2016 Prefect Body aims to promote this tradition, so that the school grows and develops with each person who passes through it.

MIC of Football Report

2016 Football Season has officially kicked off with our 1st and 2nd XI having their first hit out against St Pius. This was a good match up to start the season. In the past usually our teams are behind in both skill and fitness level. It was encouraging to see that our skill level was stronger than our opponents, but our lack of fitness ultimately was the result of our downfall. The 2nd XI played very well and had open shots on goal, but was unable to capitalise. It was a great sight to see our boys create chances and play an attacking style of football. The 1st XI was very similar with their only downfall being their lack of match fitness and awareness causing a couple of mishaps in defence. We believe we have a very strong squad this season and I am sure with some hard work we will have a successful season.

BHS 2nd XI v's St Pius 2nd XI at McKay 4

U14s Internal Trial

All other teams played internal trials and it was positive to see everyone turn up and play with the purpose of wanting to make a higher team. The sight of families supporting from the side line is great for SBHS Football. Students enjoy playing in front of their families and friends and the more support we get the harder our boys play. Teams will always be fluid so boys should want to improve and make a higher team with the ambition of playing for the 1st XI in the future. We have a long season ahead of us allowing the students plenty of time to improve on their game.

Next week is the Easter long weekend. Therefore, no Saturday fixtures. Enjoy the short break and training will be back in full swing on our return.

For SBHS Football wet weather Saturday updates please bookmark <https://twitter.com/SydHighFootball>. The account will provide regular updates on results, information and wet weather. This does not replace the school wet weather website. The link can be accessed by phone or web browser without signing in or having a twitter account.

Note:

- All boys must turn up at least 45 minutes before the start of their match.
- They must be turning up in SBHS football uniform and if they wish to wear a track suit this must also be an SBHS track suit.
- All boys must be wearing boots and shin pads
- Make sure they drink plenty of water and carry a drink bottle with them to training and fixtures.
- If you are unavailable to play you MUST notify your coach, MIC and Sports Absences well in advance. Just doing it online is not sufficient.
- No glasses are allowed to be worn on the field. If boys need glasses they need to purchase optical sport goggles.

Keep up the good effort and I am sure SBHS Football will continue to have a successful season.

Rugby Roundup

A glorious day at St Pius saw all age groups pull on the jersey for the first game of the season. Played in true High spirit some great rugby was played and some invaluable experience was had for our boys in the 13s category. Great wins for the 14s and 15s and the narrowest of losses in the 16s show what talent and potential we have here at the school for the season ahead. The opens found it tougher going but put together some great passages of play which, with hard work and commitment in training, will improve our consistency and results.

A big thank you to the parents who attended and especially those who offered to help with BBQ/Canteen and Parking. We still desperately need more parent volunteers to keep the rugby program prospering, so if you are able to help please email Julie at [<rodfox@primus.com.au>](mailto:rodfox@primus.com.au)
