

## From the Principal High Talent

Congratulations to our first grade tennis team. The boys played in a three-day tournament in the National Schools Tennis competition, finishing a creditable sixth. Well done to Klimenty Tsoutsman (9S) who achieved first place in Russian at the NSW School of Community Languages. Our open chess team

brought home the third place trophy from the Australian Schools Teams Chess Championships last week. Congratulations to Jack Keating (9R), Peter Boylan (12R), Toby Huey (7S), Justin Wayne-Lowe (11S) and Kerwin Ma (10M). Congratulations to Timothy Hanna (9R), who was a member of the Sydney Region team that won the NSW schools debating competition.

## Interpreting Year 7 Reports - Semester 2

Check your son's progress in **future oriented earning skills** – problem solving, evaluating, working with others, communicating ideas, creating and innovating. They are reported twice each year in their own text box on the school reports. Every Faculty has an opportunity to report at least twice on one of the

five 'earning skills' during the six reporting periods during Years 7-9. These skills will be needed in jobs of the future. You can understand more deeply about how your son is building his

capacity in the discrete dispositions that we have targeted for development as a school. The idea is that you can track your son's growth over his three years in the Junior School. These PEWCC skills are very contextual. Hypothetically, your son might be really good at working with others in English where he is confident and comfortable but not so effective in

mathematics where he is weaker, is reticent and defers to the strong mathematician in the work group. Consequently, skill growth might not be a simple progression from 1 in Year 7 to 3, 4, or 5 in Year 9 (depending on the scale in the rubric for each subject). Your son's progress might be uniform neither across the subjects, nor across the dispositions. I look forward to an informed dialogue between parents and teachers on the individual student's development of these important life skills. Find out more about PEWCC reporting on our website [www.sbhs.nsw.edu.au/curriculum](http://www.sbhs.nsw.edu.au/curriculum). Some students choose not to put much effort into one of the languages they do not intend to pursue in Year 8. While this is regrettable, it is also understandable. The consequence can be that the overall achievement level, as measured by our points system, might decline. Students have their second opportunity to choose a subject when they decide on their language/s for next year. Will they do one language or two? What are the commitments if they take offline classes? Will their other activities be affected? Please discuss language choices for Year 8 with your sons.

## Life Ready Skills Course - Year 10

It is very important for all Year 10 students to be in attendance from Monday to Wednesday, 16-18/12/2019. We will be running a **mandatory, 25-hour Life Ready course**. Workshops and

presentations will occupy the entire two and a half days. We need to sign off that you have completed

this course. Anyone who does not attend will have to take time out of his Year 11 studies to comply with the regulation.

## Scholarship Winners for 2020

Thank you to all the students who submitted applications for the **Phillip Day Memorial Scholarship**. The successful applicant this year was an incoming Year 7 student for 2020, Liam Nottage. Anish Joseph (11F) was awarded \$500 as an Encouragement Award. Tian Yang (7E) also received an Encouragement Award for \$250. The **Sir Roden and Lady Cutler Foundation Inc Scholarship** was open to a Year 10 student,

transitioning or enrolling into Year 11 in 2020 with a record of service to others at school or in the wider community. The successful applicant this year was Ryan Ong (10M). Ryan will receive \$1500 each year for his final two years at school. Certificates recognising the award of both of these scholarships will be awarded to recipients on Presentation Night. For committed students with a social conscience in Year 9 going into Year 10 next year, don't forget it might be you as the next recipient of this great scholarship in 2021.

### The Old Boys Bursary Program

The Old Boys Bursary Program began in 2018 with the generous support of Annie & Bruce Corlett (SHS 1961). Along with Ron Schwartz (SHS-1961), Bruce set up the first group of four bursary recipients who were granted \$2,500 each to support them in their involvement in school life. The rationale was that students whose families were struggling financially might have to limit the opportunities available to their sons because of the cost of participation. A powerful driver of the program was a newspaper interview of an Old Boy who remembered feeling different to others in his year because his family couldn't afford to buy him a school blazer.

Old Boys from graduating years 1952 to 1994 have rallied around to support this cause. In 2019, we were able to fund 11 bursaries @ \$2,500 each. For 2020, the program will have 22 bursary recipients, supported by donations from 38 Old Boys. Pledges to the program now total \$324,000. Our target is to raise \$500,000 to assist students in necessitous circumstances who have the academic ability to be a High student but cannot engage fully in school life even though they would like to, due to their personal circumstances. If you are an Old Boy (particularly from 1973, 1993 or 1994) and would like to help, please contact me at [jaggak@sbhs.nsw.edu.au](mailto:jaggak@sbhs.nsw.edu.au) and I will put you in contact with the Old Boy from your year who has been the trailblazer in donating to this most worthy and rewarding project.

**Dr K A Jaggak**  
Principal

### Meet the 2020 Prefect Intern

#### What is it like swimming at High?

Having been on the swim team since year seven, I've had the opportunity to meet and compete alongside many great swimmers. Being a small squad, each swimmer

forms a close bond with each other, and it's the camaraderie among the team; cheering from the side of the pool, group huddles and the exuberant slaps on the back that make it a unique and unforgettable part of my high school. In that moment when you are standing on the blocks at the GPS Swimming finals, with the entire school cheering in the stands, the deafening roar of drums and chants, that allow you to truly appreciate our High Spirit and what an honour it is to go to this school.

#### What other sports do you play?

During the winter, I fence. Having never fenced prior joining the school, fencing was a new experience and I really enjoyed it. Fencing is a very physically demanding and tactical sport, like a physical chess, where you always have to be two steps ahead of your opponent. Through small but firm fencing community, I have been able to train and compete overseas and interstate, creating a whole network of friends across the nation. I also train and compete in High's athletics program and my main event is the 400 sprint. During this short season, I am constantly pushed to my limits and at times you wonder why you even chose this sport. But at the end of the GPS athletics carnival, after pulling a new PB in front of packed stands, where weeks of training are finally paying off, you realise all your efforts and energy were worth it. In the summer, aside from swimming, I also play water polo. All the other sports I play are primarily individual sports and water polo is a chance for me to play with a team to work and communicate with others. I joined water polo at the end of year nine after switching from rowing and found it an enjoyable experience playing with your mates.

### How do you balance your academics with sports and other elements of school life?

Time management is crucial if you want to properly balance schooling, co-curriculars, a social life and a healthy sleep schedule. Timeboxing is a really good way to keep up with a busy life. The goal of timeboxing is to define and limit the amount of time dedicated to each activity. Time box leisure time as well as work time, to ensure you can fit everything into your schedule and get enough sleep.

### What is the best advice that you can give to students at High?

Sydney Boys High has so many opportunities you'd be a fool to not try as much as you can. In year nine I was on the debating team, environment team, SRC as well as training for four sports. Getting involved at Sydney High is a great way to meet new people, make new friends and have a diverse range of lifelong skills. Knowing more people around the school will build a greater sense of community as well as being able to get advice from older kids. High school shouldn't just be about studying and exams. Get involved, be a part of the school community, try something new. It will make your time at High more enjoyable.

**Lachlan Ho**

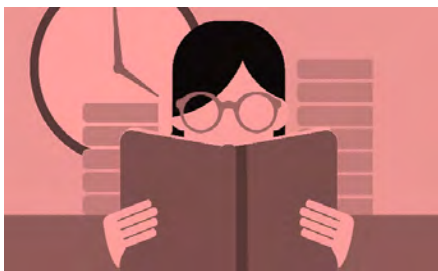

**Swimming Prefect 2020**

**Student Achievement Prefect 2020**

### Parents' Book Club – Registering Interest

Are you the parent of a junior boy at SBHS? Do you despair about their lack of interest in reading?

Ms Pride from the English Department is going to run a Parents' Book Club specifically for the parents of currently in Years 7, 8 and 9.

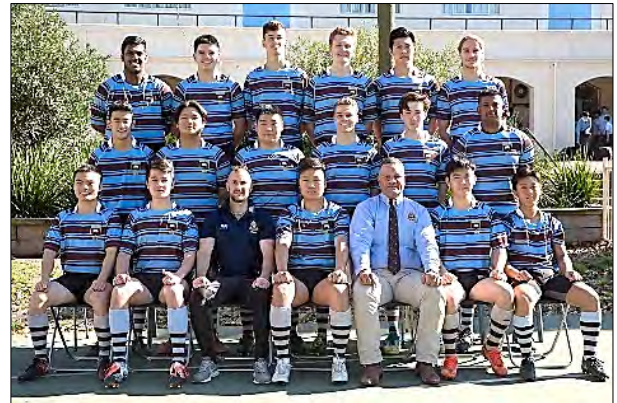

You may be a non -English speaker yourself, a non-reader, time poor, and/or uncertain about what this all means. But you are exactly the kind of parent we would like to invite to join this community group. Fathers are especially welcome to join us.

If you are interested in attending, you will be provided with the selected book by the school.

This will be an informal, friendly and supportive environment. We will provide both in-school and online discussion spaces, so please get in contact even if you can't be sure you can commit to in-person meetings.

Interested? Your first step: register interest with Ms Pride at: [pridec@sbhs.nsw.edu.au](mailto:pridec@sbhs.nsw.edu.au)

### PHOTOS, PHOTOS, PHOTOS

All GPS Sport, Music & Co-Curricular Photos are now ready to view and order.

To view and purchase Sports/Music/Co Curricular photos for 2019 please go to:

[www.melbastudios.com.au](http://www.melbastudios.com.au)

then to School Orders

Password to use is: high

### CASH REGISTER CLOSING

Due to the end of school/financial year all student payments for excursions, co-payments, contributions, text books etc. must be made by **1.20pm (lunchtime) Friday 13 December 2019.**

The cash register and online payment system will be **closed** from the end of lunch (1.20pm) and will not reopen until school resumes in January 2020.

Please finalise all outstanding items before the register closes.

**Thank you**

## High Store

Year 9 Students Senior Uniform

This day is allocated only to current students for purchase of additional uniform & senior uniform.

**NEW Students entering Year 7 or Year 9 or Year 11 in 2019 will not be processed on this day**

### CHESS NEWS

As you may have known from reading last week's notes, five of our students (Peter Boylan, Justin Wayne-Lowe, Kerwin Ma and Toby Huey), were selected to represent NSW in the Australia National Schools' Chess Teams Championships, played in Canberra on the weekend. We are so pleased to announce that our team was placed third in the competition

and proud of our players who sustained their efforts against other top teams in the country over two long days of play. As well as winning the third-place trophy for the state, Kerwin Ma (Year 10) was awarded the Board Trophy for board five and Justin Wayne-Lowe (Year 11) was undefeated, winning all four of his games. The trophy for third-place in this prestigious competition can be seen

alongside the GPS Cup in the main school building. Well done boys!

Full results can be viewed at:

<http://tournaments.streetchess.net/ASTC2019/www2019ASTCOpenSecondary/teamreport1.html>

Sydney Boys High School would like to thank parents (Sharon and Declan Boylan, Joy Fletcher, Christina Meshios, Shelley Ma and Alice Wei and Doug Huey) for their support in transporting, accommodating, supervising and championing our boys over the weekend. Without their help, we would not have been able to compete. Thank you also to our coach, Vladimir Feldman for giving up his time to coach the boys on the weekend. His coaching ensures that our boys will continue to improve their skills and reach their full potential in all the competitions in which they play across the year.

## Year 7 Chin Up Championship

**Lunch Time Tuesday 10 December**

All Year 7 weights room members are to come to the weights room to participate in the annual Year 7 Chin Up Championship. Bring Training Gear

# Bring Your Own Device 2020

## PRODUCT OPTIONS

Our **recommended** devices are designed to simplify your choices and purchasing processes. A range of devices in a range of form-factors are available. All meet the school's Device Specification. All have no moving parts to ensure reliability and all are backed by a multi-year warranty where the school will act as warranty agent on your behalf. Sydney Boys High School has partnered with JB Hi-Fi Education to make our recommended devices available:

### Lenovo ThinkPad Yoga L390 **\$1276**

- Multi-touch with full keyboard
- 1920 x 1080 pixel screen
- 8GB RAM + 256GB Storage
- 360 degree rotating hinge
- Windows 10
- 3 Year warranty, school-supported

### Microsoft Surface Pro 7 **\$1976**

- Multi-touch with keyboard cover
- 2736 x 1824 pixel screen
- 8GB RAM + 256GB Storage
- Detachable keyboard cover
- Windows 10
- 3 Year warranty, school-supported

### Apple MacBook Air 13" **\$1955**

- Conventional laptop
- 2560 x 1600 pixel retina screen
- 8GB RAM + 256GB Storage
- macOS 10.15 'Catalina'
- 3 Year warranty, school-supported

#### Alternative, Base Model:

### Lenovo ThinkPad L390

**\$1004**

- Conventional laptop
- 1366 x 768 pixel screen
- Windows 10
- 3 Year warranty
- 4GB RAM + 128GB Storage

## HOW TO BUY

- Visit the JB purchasing portal at <https://sbhs.co/bbuy>
- Log in with code **SBHS2020**
- Purchase using a credit card, BPAY or on interest-free terms
- Pick up from your local JB Hi-Fi store

# Sydney Light Rail

## Tram Testing

- Tram testing and commissioning of systems is underway across the CBD and South East Light Rail route ahead of its opening on 14 December.
- With cyclists, pedestrians, drivers and trams interacting together, it's important we all play our part to stay safe around light rail.
- Whether you're walking or riding your bike, avoid distractions and cross the tram tracks safely. Drivers should be aware that road conditions have changed and to follow traffic signals.

## Key links:

- [Youtube](#) Tram safety video Cyclists
- [Youtube](#) Tram safety video Motorist
- [Transportnsw.info](https://transportnsw.info) safety tips page
- <https://sydneylightrail.transport.nsw.gov.au/safety>

## Important:

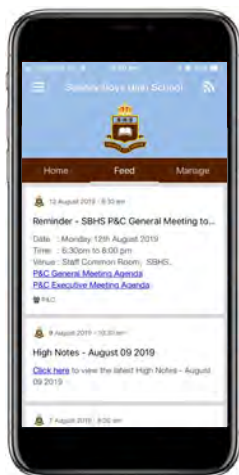

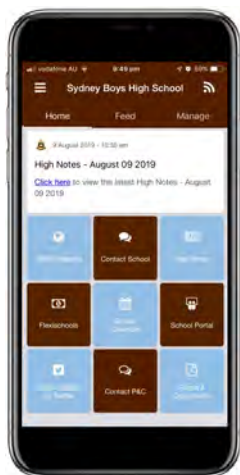

- Be aware at intersections for trams, and follow traffic signals.
- Always use designated crossing points, push the signal button and wait for the green signals before crossing the road.
- Step over tracks as they can be slippery when wet.
- Always look both ways and remember trams can approach from both directions.
- For prams, cyclists and wheelchairs, cross tracks on an angle to avoid wheels getting stuck in the tracks.
- If you need further information, please contact [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au)

# Stay up to date with SZapp

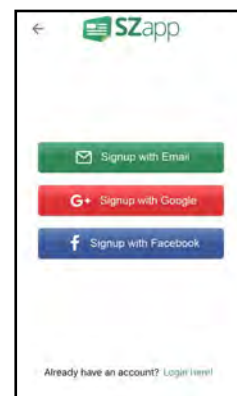

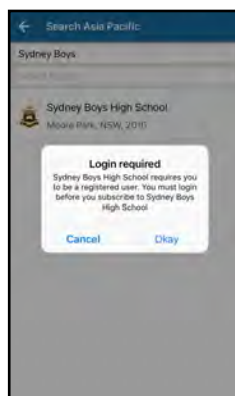

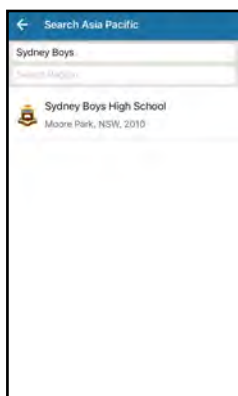

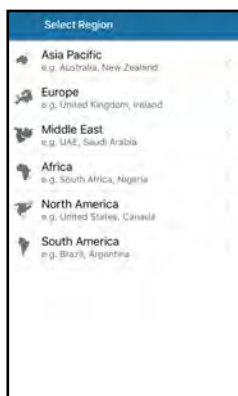

Download this App to be kept up to date with everything that is happening at **Sydney Boys High School**. It features School Calendar, School Newsletters, School Contacts, Documents, and Push Notification Alerts. Messages can be translated through the app into many different languages.

## Installation Instructions

### 1. DOWNLOAD SZAPP

Search the App Store / Play Store for **SZapp**.  
Download and install SZapp. **Install is Free.**

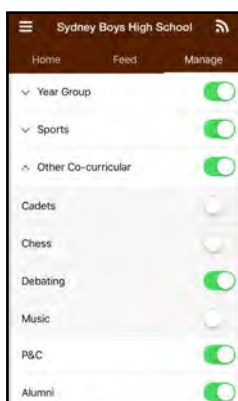

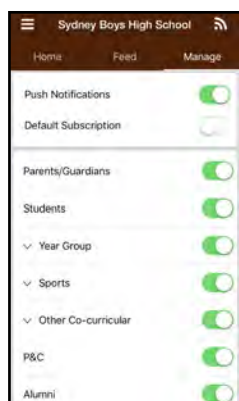

### 2. FIND OUR SCHOOL

Select Region: Asia Pacific  
Sydney Boys High School

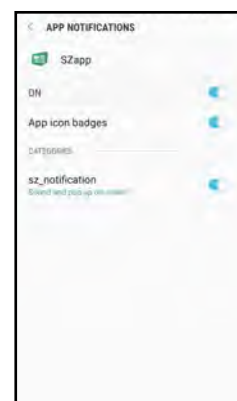

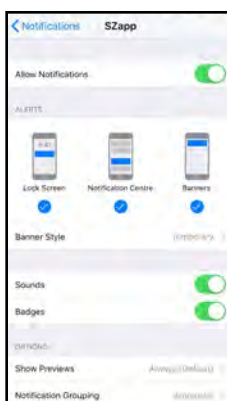

### 3. REGISTER A USER

You will need to register a user with your email or sign in with Google or Facebook.

### 4. MANAGE NOTIFICATIONS

Choose which group/s you would like to receive notifications from. Groups with arrows indicate that there are sub-groups which you can join.

### 5. CHECK SETTINGS FOR APP NOTIFICATIONS

Check your phone settings to allow for push notifications from SZapp.

For any further information see:

<http://www.schoolzineplus.com/app-faq>

### Music Storage Room

Students are to make sure instrument[s] are taken home over the school holidays, during the Term 4 break. Students, parents and guardians are reminded that SBHS does not provide instrument insurance or cover. The Music Department will not take responsibility for loss or damage whether on or off the school property.

### 2019- 2020 Music Performance Program

Only European Music Tour Ensembles will be rehearsing until the end of Week 9 this term.

In 2020, all private instrumental lessons and ensembles commence from Week 2 in Term 1 i.e. from Tuesday 4<sup>th</sup> February (Monday 3<sup>rd</sup> Feb-whole school swimming carnival), unless an alternate date has been communicated by tutor and/or ensemble conductor.

### Parking – Award Scheme Points given

Parking event (Cricket Day 5 Test Match Australia vs New Zealand) on Tuesday 7<sup>th</sup> of January 2020. If students would like to sign up for parking, please see Ms Kim directly in the Music Department to sign up.

### 2020 Term 1 European Music Tour Rehearsals

All European Music Tour ensembles will continue

rehearsing, same time/day in Term 1 next year. Any ensemble changes will be notified to students as soon as possible.

In 2020, there will be TWO weekend rehearsals including a Farewell Concert before the tour departs. Please save the following date[s]:

\*Sunday Rehearsal (all touring ensembles): Sunday 16<sup>th</sup> February, 9.30am-3.30pm

\*Sunday Rehearsal (all touring ensembles): Sunday 8<sup>th</sup> March, 9.30am – 3.30pm

\*EMT Farewell Concert (all touring ensembles): Sunday 29<sup>th</sup> March, 1.30pm-3.30pm

NB: Rehearsal day(s) will not change, but time(s) may vary and will be notified to students, parents and guardians.

### SZaPP- Music Announcements

For the latest news and notifications, please download SZaPP from the Apple App Store or Google Play and subscribe to MUSIC. Installation guide is in High Notes.

# SHOOTIN' 256 HOOPS

---

Welcome back to yet another new edition of Shootin' Hoops, this weekend our First's went against Scots College, while Second's clashed with a Newington side. While our best two teams were playing against those schools, the rest of our teams went up against St Joseph's College in which we had nearly double as much wins than we had losses. Our First's team played amazingly keeping the game close but unfortunately falling short by six points 68-62, ultimately placing an impressive second place in the Raschke Cup. Our Second's fought hard but unluckily came to a 15 point loss 47-62, however this will only motivate our Second's to bounce back stronger than ever in 2020. This weekend was our final basketball GPS game of 2019 for Sydney Boys High, however make sure you get your shots up and train hard in the holidays to prepare yourselves for the upcoming 2020 basketball season.

**Brian Tran**

The game against Scots on Saturday was a tough one. We came out strong off the tip off, leading the game by 2-3 points for a quarter, before escaping with a lead up to 16 in the third. However, when Scots played their trap, they gained momentum, and the lead was chased down to an even game. Fortunately, High were able to produce another boost to finish off the game, regardless still only narrowly coming up short by 6. Nonetheless, we held our heads up, pumped for the coming week in Melbourne. We'll get them next time at home.

**Alex Zhou**

Seconds were pumped and ready to put in a massive effort against Newington in their last preseason game. As they got off to a slow start, trailing 20-9, they were quite prepared for the last three quarters of the game. Knowing that they needed all the heart, effort and skill needed to cut the lead and comeback, an extremely motivating second and third quarter took place. By the start of the fourth quarter, our Seconds had sliced Newington's excessive 15 point lead to less than 10, thanks to Keane's 10 points and Sean's 8 points. However, in the stretch, not much gas was left in the tank, and Seconds lost their shooter's touch, just barely rimming out time and time again. 47-62, Newington. An unfortunate but memorable game for Seconds, who resiliently look to explode with a dub in their first game in 2020.

**Edward Ly**

The 15's teams had an average weekend against Joey's, with a 50% win rate. The C's, D's and F's each took convincing wins against Joey's by at least a 10 point differential. The A's, B's and E's respectively played great games, with the B's getting just beaten by a point. The termination of preseason games foreshadow a great start and finish for next season. A pleasant end to 15's basketball 2019.

**Edward Ly**

Our 16's teams had an amazing weekend with every team besides our F team getting the win in the first real GPS game against St Joseph's College. All of our training was sure to be portrayed through the quality of our teams performances on the weekend with most of our teams achieving a huge lead early in the game, while also keeping up the consistent harsh defence which ended up denying St Joseph's the chance to score many times. A splendid start to the GPS season, and we are definitely looking to keep this up in 2020.

**Brian Tran**

This was the final weekend of 2019 GPS basketball and the outcome was amazing for us with many more wins than losses. However in order to keep this success up we will all have to put in a collective effort and be sure to get our shots up in the holidays, so that in 2020 we come out more than prepared and ready to win. Good luck to our opens and 15's CHS teams heading off to Melbourne this week!

**Brian Tran**

#### 1<sup>st</sup> XI Report

Day 2 of Joeys began with us hoping to put on a fantastic display of bowling allowing us to defend our below par total. We started the day out strong with our seamers keeping the run rate low but Joeys remained solid throughout. The spark and breakthrough came with a change of bowling with our spinner taking a quick 2 wickets setting Joeys on the back foot. However due to some loose bowling they managed to tick over the score quite easily passing our total. They consequently continued to bat looking to put forward a score allowing

them to achieve second innings point and thus they declared at around 250. They sent us in to bat again. We had to last 35 overs to defend second innings points. After losing 2 wickets early there were a few nerves in our shed however some strong solid batting from our middle order allowed us to face the remainder of the overs with ease ultimately losing by just first innings. A poor performance but some positives to take from it moving forward to Five Highs in Brisbane.

#### Vivek Mahajan

##### 1<sup>st</sup> XI Captain

#### 2<sup>nd</sup> XI Report – Team of the Week

Defending 142 for victory, we went into the 2nd week of our two-day match against Joeys with an attacking mindset, ruthless in our approach. With overcast conditions and a questionable pitch, a foundation was laid for High to capitalise on. Pressure was placed from ball one, as we managed to attain a run out from the 2nd over of the day. From then on, it was wicket after wicket as opening bowlers Charlie (Year 11) and Albert (Year 10), toiled away, sticking to the plan of bowling stump to stump. With Joeys 4-20, we could sense a monumental collapse. High's intensity combined with our 'foot on throat' method allowed our bowlers to gain momentum with a successful stream of maiden overs following throughout the innings. Pulkit (Year 10) was then brought into the attack, relentless in his tight line and length, and allowing the pitch to do its job by bowling at the stumps. While he cleaned up the middle order at one end, Anish (Year 11) was at the other, his ferocity proving vital to the wickets of the lower order. Joeys bowled out for a meagre total of 75 within the first session. An unbelievable effort by the boys, who are sure proud of their efforts to manage an unlikely win after several doubts by players and parents. After lunch, we opted for outright in an attempt to gain more points and stamp our authority in the competition. With a lead of 67 runs, we aimed to increase the flow of runs quickly, however a 'dead' pitch stemmed this objective, and with time an increasing concern, both teams had called the game after tea. In the end, High winning 1st innings by 67 runs. This game was dedicated to Coach Eli Hall, whose last game with us motivated us to play hard with passion and integrity. A fantastic end to the year for High 2nd XI.

#### Harris Memon

##### 2<sup>nd</sup> XI Captain

### Barberis Cup

Sydney High have not won this Cup over Melbourne for five years and this was only our 10th win since we started this rivalry against Melbourne in 1973.

The Year 9 Sydney High Barberis team were more pumped than ever before especially heading into the first game of three against Melbourne High School. After taking the early wickets of the openers, Melbourne did well to put on a long lasting partnership with their 3 and 4 batsmen. After breaking this partnership of close to 100 runs, the Melbourne order collapsed with a spectacular hat-trick from Albert and great support from Tahmid at the other end which lead to them being all out for 164. We went into bat. Two early wickets from our top order put our team on the back foot, however a much-required partnership of more than 100 runs between Harsh (57\*) and Cody (49\*) built our confidence. After being 2-130 in the 27th over, rain poured down. This cancelled the day's play leading to us winning over comparison where Melbourne were only 116 runs in the 27th over.

#### Game 2 Tuesday

The Sydney High Team still had the momentum from the previous game and rode that into this game. We were confident and excited especially after winning the toss and going in to field. We again picked off Melbourne's openers quickly, however we were aware their number 4

batsmen remained dangerous. This again caused a collapse in Melbourne's tail order, causing them to be all out for only 90 runs. Our confidence remained, with a steady start from our openers. After a wicket had fallen, Cody (41\*) went in to bat. Another spectacular performance from him led us to chasing the total with only 1 wicket down. High was thrilled knowing we had won the competition. We sang the school song with pride and we were over the moon.

#### Game 3 Wednesday

Although we had already won the competition, High was still determined to win the T20. We lost the toss and were sent in to bat. Our openers again started us off well, however we lost a wicket in the fourth over. A quick fire 73 of just only 52 balls from Aikaansh, and the other opener Raghav (25) and Armaan (23) to support, we ended up on 162, a very strong total put up on the John Green Scoreboard. High were ready to bowl. With a team effort with the ball, we rolled the Melbourne team for a total of only 62. Stand out performances with the ball were from Tahmid and especially Ronnie again taking the wicket of their most dangerous batsmen early. We were ecstatic we had won all three games. The team would especially like to thank Mr Smith for all of his hard work in coaching and organising this carnival

On the 30 November, High 1<sup>st</sup> Tennis (missing the top 5 players due to them being rested after nationals) played Scots 1<sup>st</sup> Tennis. High lost the 1<sup>st</sup> doubles 7-6, 6-3 and this match was played by Stepan Sytnyk and Lawrence Zhang. High won the second doubles 6-4, 7-5. This match was played by Blair Zhong and Dean Casarotto, a very good effort on their part. The final doubles was played by Julian Zhang and Harry Lao, their score was 2-6, 2-6, but a very good effort on their part. The singles order was: 1. Stepan Sytnyk, 2. Blair Zhong, 3. Dean Casarotto, 4. Lawrence Zhuang, 5. Julian Zhang and 6. Harry Lao. The scores, (High-Scots), were 1. 6-7, 6-7 2. 3-6, 4-6 3. 2-6, 3-6 4. 4-6, 4-6 5. 0-6, 2-6 and 6. 2-6, 6-3, 3-6.

At the end of the day our team had put in great efforts in their individual matches. Some things that they did well in were sticking to their game plans and playing to their strengths, but some improvements to their game could be to communicate more in doubles matches and to be more vocal in support of each other's games, especially tight ones.

**Stepan Sytnyk**  
**Captain on the day**

#### Australian Schools Tennis Nationals 2019

Congratulations to our 1<sup>st</sup> Grade Tennis Team (Stepan, Antonio, Andy, Khobi, Zachary, Hikaru) and Coach David Deep who placed 6<sup>th</sup> at the Australian Schools Tennis Nationals in Albury. They boys played on grass courts over 5 days of competition. It was a great experience for the boys.

Dear Student & Parent/Guardian,

The High Tennis program relies on fundraising to function at the High level it currently does. One of the most direct and easiest ways to fundraise is by attending parking duties. I am asking for volunteers both student and parent to attend 1 or more of the following parking duties:

- Wednesday 18<sup>th</sup> December 4-7pm
- Saturday 25<sup>th</sup> January 12:40-3:40pm

All duties have an experienced paid attendant to assist you.

Please return the bottom slip to Mr Kurt Rich by Monday 2<sup>nd</sup> December 3:15pm alternatively you may email me on [richk@sbhs.nsw.edu.au](mailto:richk@sbhs.nsw.edu.au)

## SBHS SAILING

Last Saturday saw the arrival of some of the heaviest breeze experienced all season. Expected to reach 27 knots, it would be a crucial day for the boys to sharpen their skills and confidence in such heavy conditions. With only Scots College participating in the morning races, it gave us a better opportunity to do so without worry of crashing into other boats in the heavy breeze. Unfortunately, the day highlighted our need to refine

our skills, with almost everyone capsizing, but nevertheless, it was an important experience for all. Neil Ghosh (Year 7) was a standout this week, putting on a brave face to skipper for the first time in what was an induction of fire. This was our last Saturday race meet for the season, but our next gathering will be our end of year Christmas Party, before we look onwards to the business end of the season next year.

— SYDNEY BOYS HIGH SCHOOL —  
**‘BACK<sup>TO THE</sup> SHEDS’**  
— DAY —

SHS Rowing would like to extend a special invitation to the Sydney Boys High Old Boys, High rowing community and their families to come ‘back to the sheds’.

Watch the inaugural old boys crews of 2005|06 and 1989|90 rowing seasons compete against the current High 1st VIII. Enjoy a scrumptious morning tea after the race.

DATE:

**Saturday 7th December 2019**

TIME:

**9:30am - 11:30am**

VENUE:

**Outterside Centre**

5 Teviot Ave, Abbotsford

PLEASE RSVP BY:

**Saturday 30th November 2019 by clicking [HERE](#)**

For more information, please email Les Cheng:

GIVE THE GIFT OF ENTERTAINMENT

## The Gift that keeps on giving

Gladly accepted, instantly available, year-round savings

## Say it with savings this festive season!

'Tis the season for supporting and we have a great gifting opportunity which helps our fundraising efforts.

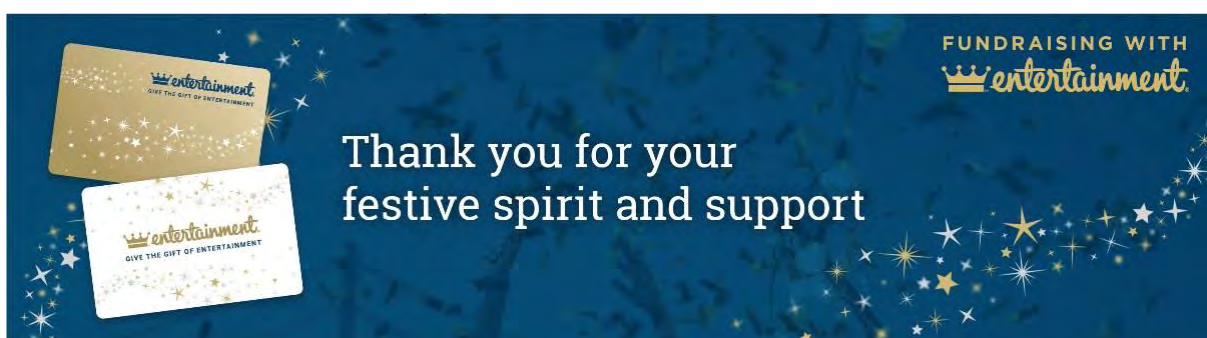

The Gift of Entertainment is a new Digital Membership valid for 12 months from the day of activation. You can buy that special someone a Single City or Multi City Membership so they can save year-round on everything they love to do. Simply buy it, print it, gift it!

|  |  |   |
|--|--|---|
| <b>Single City</b><br><b>\$69<sup>99</sup></b><br>1 Year<br><br>Discover all the best savings in your city | <b>Multi City</b><br><b>\$119<sup>99</sup></b><br>1 Year<br><b>MOST POPULAR</b><br><br>Enjoy savings across all of Australia, New Zealand and Bali | <b>Multi Plus</b><br><b>\$229<sup>99</sup></b><br>2 Years<br><b>BEST VALUE</b><br><br>2 years of savings across Australia, New Zealand and Bali |
|--|--|---|

We receive 20% of the sale from each Membership for our fundraiser and you'll get 12 months of thanks and appreciation for being an exceptional gift giver.

**BUY NOW.**

# GERRIC Student Programs

## School holiday program for gifted students

Are you a student in Year 3 – 10 at an Australian school? Are you bright, intellectually inquisitive and looking for something more challenging, more intellectually demanding, and more fun than you may sometimes experience in school? Would you like to take part in program that will really stretch your mind?

GERRIC offers a range of school holiday programs for gifted and talented students (generally students who are capable of performing in the top 10% of their age-peers) for students from years 3 -10. The GERRIC holiday programs will open students' minds to abilities they may have not suspected they possessed, and opportunities to use those abilities to the fullest during a 3 day program at the UNSW Kensington Campus or at our partner school, Matraville Sports High School.

### WHY?

Giving gifted students an avenue to explore their passions and potential helps extend their thinking and reignite a passion for learning. We offer workshops in a huge range of topics, from art to artificial intelligence, with everything in between!

Gifted learners are provided with the opportunity to be surrounded by and engage with like-minded peers who share their interests.

### JUNIOR SCIENTIA

#### Years 3-6

The courses in Junior Scientia are developed and presented by teachers qualified in gifted education and aim to encourage the interests and curiosity of gifted children. The level of difficulty in the courses is generally two years above the enrolled school level of the child, offering a challenge for gifted students.

### SCIENTIA CHALLENGE

#### Years 7-10

The courses in the Scientia Challenge are developed and presented by practising experts from academia or industry. The level of difficulty in the courses is again pitched higher than the students' grade level, providing a rigorous and challenging program that goes beyond the scope of their school curriculum to engage and pique students' interests.

### EQUITY

Scholarships and advanced placement are available.

## Spatial Storytelling with Dean Utian

Have you ever considered how the buildings and spaces you occupy have embodied stories?

Have you noticed how architecture and the built form are often key characters in movies?

Film is an artform closely connected to architecture. Both create and define experiences of place and space.

Digital film making is highly accessible with our mobile phones enabling cinematic production. In this workshop, you will learn principles of filmmaking, architectural design and storytelling. We will critique films for their spatial meaning and create our own that tell a spatial story. Through the process, you will gain a deeper understanding of spatial experience and meaning, develop technical skills in digital video editing, and filmmaking capabilities to tell your own stories.

Beware, after this workshop you may never see movies in the same way.

Dean is both a Sessional Academic and Educational Designer in the Built Environment. His teaching covers digital communication, filmmaking, games and immersive environments. Dean supports the Faculty in staff capacity building, digital uplift, development of fully online courses, as well as best practice in technology enhanced learning and teaching. A recipient of the Vice Chancellor's Award for Teaching Excellence, he is passionate about education and the use of current and emerging technologies to enhance the student experience and learning outcomes.

## Flex Your Wii Muscles with Heba Khamis

Can you play Nintendo's "Mario Kart" using only signals recorded from the human body? If you believe that you can, then you may well be destined to design the machines of the future. The future promises the integration of electronics and technology with the human body to improve the quality of life of the sick or disabled. The human body is alive with the most amazing range of electrical signals. Our brains are impressive computers that use electrical signals to transmit and process information – that is, to think! Our brain sends electrical signals to our muscles to instruct them to contract, or to our vital organs to regulate chemical levels. Our senses convert light, sound, touch, smell, taste, balance and acceleration, and temperature to electrical signals for our brains to process – this is how we perceive the world around us.

This workshop straddles the important interface between human physiology and electronic system implementation, which is of huge importance in all medical instrumentation design. The goal of the workshop is to control a modified computer game (Nintendo's "Mario Kart") using only signals recorded from the human body. You'll pair up in teams of two and compete (race) in a final session. The basic electronic design elements will be provided and you'll construct the final circuit and write a simple computer program to interpret the recorded signals, such that you can control the modified game console. The associated lectures will discuss the basis of the how the recorded biosignals are generated in the human body and the principles upon which the recording equipment operates.

Heba is a lecturer in the Graduate School of Biomedical Engineering, UNSW Sydney and a Research Associate with Neuroscience Research Australia. Her start up Contactile, a revolutionary approach to tactile sensing for robotic and prosthetic applications, was selected in top 6 in Best New Idea category for St George Bank Kickstart Competition 2019, at TedEx Sydney. Heba's primary research interests revolve around the application of signal processing and pattern recognition techniques to solve or understand biomedical engineering problems, including analysis of EEG, ECG, neural spike trains and inertial signals, as well as image processing, sensor design and robotic control.

## Introduction to Artificial Intelligence Techniques using Logic Programming with Vladimir Tomic

You might have watched a science-fiction movie with intelligent machines or heard that artificial intelligence (AI) will change the world. In this workshop, you will be introduced to some of the techniques used to make computers behave more intelligently (e.g. to beat humans in challenging games like chess or to make complex decisions in stock markets) by leveraging logic programming in the programming language Prolog.

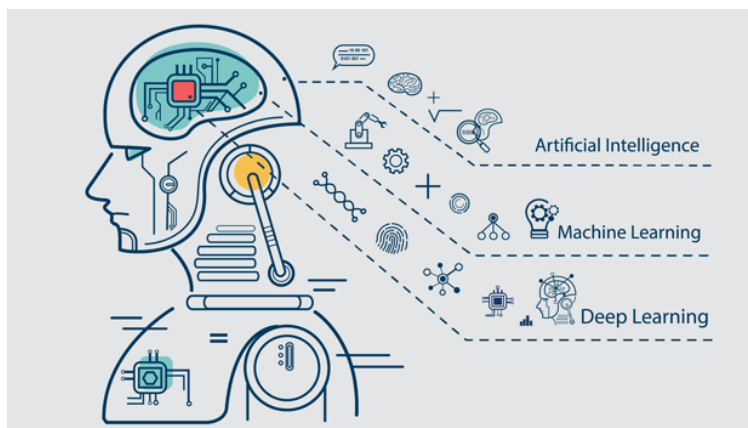

You will learn the basics of Prolog and will spend the majority of the workshop writing Prolog programs (of increasing complexity) using a free online programming environment. No prior programming experience in any programming language is necessary! (If you already have programming experience in another language, note that Prolog requires a different way of thinking and programming, useful for solving artificial intelligence problems.) Using Prolog examples, you will also learn about how artificial intelligence programs represent knowledge, how they solve problems by searching among potential solutions, how they make optimal decisions in game playing, and how they learn from experience.

Note: You will need to bring a fully-charged laptop or tablet.

Vladimir is an ICT educator with diverse teaching experiences, both at universities (in Europe, Canada and Australia) and in NSW secondary schools.

He is currently a Casual Academic at the UNSW School of Computer Science and Engineering where he lectures, tutors or mentors students part-time per year and has taught many gifted and talented Ph.D, Masters, and Honours university students. In addition to this, he also works full time as an IT Teacher at Taylors College.

Vladimir has taught artificial intelligence and logic programming both in NSW secondary schools and within undergraduate/postgraduate subjects at 2 universities (including tutoring UNSW COMP3411/9414 Artificial Intelligence). He is looking forward to helping GERRIC students start to learn and love this exciting area of human creativity.

## Critical Thinking; Ethics; Philosophy and how to Debate an Issue Brilliantly with Michele Waterson

This program aims to develop in our children, qualities of strong critical thinking, philosophical contemplation and ethical consideration of the global issues that they, as global citizens, will encounter each day.

We begin by acknowledging: "That in a free state every man may think what he likes, and say what he thinks..." - Benedict de Spinoza

However, as citizens in a 21st Century reality of information overload, we must ensure that we are discerning consumers of information. People need to validate 'facts' and 'arguments' presented to them in order to justify all claims and assertions in line with their own world view and personal values.

Students will develop skills of: critical thinking, ethical accountability and philosophical reflection. Students will learn to delve for accountability from all facts and arguments presented to them through all media forums. Students will use these skills to build arguments and debate those arguments effectively and ethically.

Michele is the debating convenor at St Pius X College and an experienced GERRIC presenter.

### The Brain in Health and Disease with Ken Ashwell

We'll study the structure and function of the normal brain and spinal cord and then consider types of disease that can affect the brain and spinal cord. The classes will explore the structure of the nervous system at the microscopic and naked eye level, and we'll discuss how function is localised in the brain. You will have the opportunity to practice clinical examinations of the nervous system on classmates and analyse how brain disease or damage might be prevented or repaired. You'll also have the opportunity to make diagnoses and recommend treatment for patients with brain disease.

Ken is a professor in the School of Medical Sciences at UNSW and a researcher of Comparative and Evolutionary Neuroscience. He is an experienced GERRIC presenter and author of textbooks.

### Cinematic Sounds with Anthea and Rodney Wikstrom

Think of your favourite movie. If it had no sound or music, would it still have the same impact on you? Film music and cinematic sounds enhance character, create mood and heighten emotion in films. A soundscape can make or break a film. In this workshop, you will explore the work of film score composers, Foley artists, and the impact technology has had on the history of film music. Using computer software, you will learn to produce and arrange sounds, compose and record music, synchronize sounds to video, and create a film score soundtrack. Film composers of the future, come on down!

Anthea is a graduate of the Conservatorium High School, and of the University of NSW in violin performance, film & composition. She has performed in many interesting roles including the Edinburgh Military Tattoo, Anthony Callea and various rock & country bands. Anthea currently performs with country music act Jackie Dee, and The Real Mexico Mariachi Band. She is a trained school teacher and taught at the Conservatorium High School, accompanying students to Shanghai Conservatorium and World Expo. Anthea's enthusiasm is infectious, and is an inspiration to her violin students.

Rodney is also a passionate music educator with an interest in gifted education, and has studied with internationally respected violin pedagogues. He teaches violin privately, and is also a trained high school music teacher experienced with all levels up to HSC Music 2.

### Page + Stage: Poetry and Spoken Word with David Stavanger

*Step up to the mic/and let the words/take flight*

In this workshop you will work on both sides of the art form – the written & spoken – to develop a small body of poetic work either for the page and/or the stage. With one of Australia's most dynamic teachers in this field, you will have fun as you learn how to tune into your creativity and find your own voice through a series of individual & group exercises exploring writing, editing and performance technique. You will also learn about the history of poetry slam before you run your own live slam on the final day, performing your original work. David will perform pieces for you, show a series of spoken word videos, as well as using a range of prompts to get the words & images flowing.

No writing or performance experience needed. At the completion of this workshop, students will also have poems that can be published online or entered into poetry writing competitions.

David Stavanger is a poet, performer, cultural producer, editor and former psychologist. In 2013 he won the Arts Queensland Thomas Shapcott Poetry Prize, resulting in the release of *The Special* (2014, UQP), his first full-length collection of poetry which was also awarded the 2015 Wesley Michel Wright Poetry Prize. David was Co-Director of QLD Poetry Festival 2015-2017, a period known for inclusive programming and stronger focus on CALD and First Nation voices. David was selected as a 2018 Melbourne Visiting Poets Program: 2018 Regional Resident by RMIT non/fiction Lab and Australian Poetry and his poem 'Octonaut' was recently short-listed for the 2019 Moth Poetry Prize (Ireland). He has been a feature at many major festivals including, Dark MOFO, Brisbane Writers Festival, Sydney Writers Festival, Tasmanian Poetry Festival, National Folk Festival, NT Writers Festival, NightWords at the Sydney Opera House, TEDx and was the first Australian to have work selected for The Spoken Word Revolution which showcased the world's best spoken word artists.
